

**PERMIT INFORMATION**

PROPERTY ADDRESS:

BUILDING PERMIT NUMBER:

WORK DESCRIPTION (COPY FROM BUILDING PERMIT):

This building permit is for:                      New Construction                      Renovation/Alteration

The following sections are required for **BOTH** new construction and renovation/alteration building permit application types.

**AIR POLLUTION CONTROL (APC) PERMITTING (11-4-620(a))**

Information on APC permitting in the standard plan review (SPR) process is provided by the APC Permit Guide for Environmental Plan Review, including explanations on when permits are required.

**A separate APC permit is required, and an application has been submitted** for this building permit application via ipi.cityofchicago.org under ENVAIR \_\_\_\_\_ (application must be in "Fees" milestone).

**No APC permits are required.** No regulated equipment or areas (as defined in 11-4-610) are being installed, operated, replaced, relocated, repaired or modified as part of this building permit application.

**SANDBLASTING, GRINDING, AND CHEMICAL WASHING PERMITTING (11-4-2190(a))**

This building permit application **DOES INCLUDE** sandblasting, grinding, or chemical washing and a separate ENVAIR permit for architectural surface cleaning will be obtained via ipi.cityofchicago.org prior to start of work. (Select "Architectural Surface Cleaning" as work type, follow the submittal requirements, and pay all associated fees)

This building permit application **DOES NOT INCLUDE** any sandblasting, grinding, or chemical washing.

**CONSTRUCTION OR DEMOLITION SITE WASTE RECYCLING (11-4-1905(4))**

If your project meets any of the criteria below, you are required to complete a Construction & Demolition Debris Recycling Compliance Form and submit to CDPH within 30 days of project completion.

Does the project meeting any of the criteria below:

YES    NO

New construction of a new residential building with four or more dwelling units.

New construction of a new non-residential or mixed-used building with total square footage (building area) greater than 4,000 square feet.

Any rehabilitation (renovation/alteration) of a building that will require a certificate of occupancy to issue from the Department of Buildings.

Demolition of a residential building with four or more units that includes the demolition of at least one outside (exterior) wall.

Demolition of a non-residential building with a total square footage (building area) of greater than 4,000 square feet.

The following two sections are NOT required for **new construction** building permit application types.

**DEMOLITIONS AND RENOVATIONS: PERMIT AND NOTIFICATION REQUIREMENTS (11-4-2170(a))**

Prior to commencement of renovation or alteration, Facilities as defined in 11-4-2150(b), subject to this building permit application must be thoroughly inspected by a licensed asbestos professional for the presence of asbestos, including Category I and Category II non-friable asbestos-containing material (ACM).

**ASBESTOS INSPECTION CONDUCTED BY:**

COMPANY NAME (if applicable):

EMAIL:

LICENSE NUMBER 100-

LICENSE EXPIRATION DATE:

DATE OF INSPECTION:

Does this Renovation/Alteration permit application involve the wrecking or taking out of any load-supporting structural member of a building, facility, or other structure?

If **YES**: a written notice of intent to demolish must be submitted to CDPH after building permit issuance but at least 10 days prior to start of demolition via [ipi.cityofchicago.org](http://ipi.cityofchicago.org).

**Asbestos inspection DID reveal the presence of ACM.** All ACM that will be disturbed by this project must be properly abated, transported, and disposed in accordance with 11-4-2170(e) and 11-4-2170(d)(2). (Select "Both Asbestos Abatement and Demo Notification" as Type of Work, follow the submittal requirements, and pay all associated fees.)

**Asbestos inspection did NOT reveal the presence of any ACM.** (Select "Demolition Notice of Intent" as Type of Work, follow the submittal requirements, and pay all associated fees.)

If **NO**:

**Asbestos inspection DID reveal presence of ACM.** All ACM that will be disturbed by this project must be properly abated, transported, and disposed in accordance with 11-4-2170(e) and 11-4-2170(d)(2). An asbestos abatement notification must be submitted via [ipi.cityofchicago.org](http://ipi.cityofchicago.org) after building permit issuance but at least 10 days prior to the start of work. (Select "Asbestos Notification" as Type of Work, follow the submittal requirements, and pay all associated fees.)

**Asbestos inspection did NOT reveal the presence of any ACM.** No further asbestos-related submittals are required.

**LEAD-SAFE RENOVATION, REPAIR AND PAINTING CERTIFICATION (11-4-2170(h))**

The structures or portions of the structures subject to this Renovation/Alteration permit were constructed **BEFORE 1978** and the renovation is regulated under 40 C.F.R. § 745.82. (Review [A Guide to Filing Form LRRP](#) and file if required.)

The structures or portions of the structures subject to this Renovation/Alteration permit were constructed **IN OR AFTER 1978**.

The following section must be completed for all building permit application types.

**PREPARER INFORMATION AND CERTIFICATION**

I certify on behalf of the permit applicants that I understand and agree to comply with the environmental requirements.
