Attachment A

Utilizing JOC For City Construction Projects

Project Number: 08-84-9-022

Department: Transportation

Project Manager: Lynn Hollenberg

Telephone #: (312) 742-4771

For all Proposed JOC Projects, Please complete Items 1 and 2 below. As appropriate, Complete items 3,4 and 5. Attach to MOA (JOC Approval Letter)

1. Please describe the major features of this project.

Project is located at 100th Street and Ewing Avenue. Work includes installation of 2 ADA ramps, curb restoration and guardrail installation, removal, relocation and restoration of bike path and associated signage, installation of a mulch path and planting bed preparation.

2. Please explain why this project could not be bid using the city's traditional bid process and the need to use JOC Procurement system.

In order to comply with the federal court order, CDOT must complete installation of these two ADA ramps by the end of 2008. Since the bike path work is adjacent to one of the ramps, combining this work with the ramp project will avoid multiple mobilization costs. To produce bid documents and bid this project would add extra costs well beyond the project's current value. Extra costs would include design consultant fees plus the added administrative cost of executing the consultant contract, managing the design process, and administering the bid award process. In addition, the time required for these administrative steps would preclude a December 2008 completion of this project.

3. If the project is a one trade project, please provide additional explanation of why it would be in the city's best interest to do the project under JOC:

N/A

4. If it is anticipated that over 25% of the project will consist of Non-prepriced items, please provide an explanation on why JOC should be used.

It is anticipated that no non-prepriced items will be used in this work.

5. If some elements of the proposed JOC project scope of work are covered by city term agreements, explain why they are included in this JOC project instead of being procured through the term agreements.

This work cannot be completed by the end of 2008 using a term agreement. The term agreement for this work is fully obligated through the end of 2008.
