Utilizing JOC For City Construction Projects

Project Number: 09-84-9-046

Department: Transportation

Project Manager: Dave Leopold

Telephone #: (312) 742-4772

For all Proposed JOC Projects, Please complete Items 1 and 2 below. As appropriate, Complete items 3,4 and 5. Attach to MOA (JOC Approval Letter)

1. Please describe the major features of this project.

This project will install a community gateway identifier on W. Argyle St. between Broadway Ave. and Winthrop Ave. (Immediately west of the CTA viaduct). The scope will include the fabrication and installation of concrete support columns, a steel beam, and associated architectural elements for a gateway spanning the roadway. Installation will include lighting elements and service connection integrated into the gateways design, as well as protective bollards and vehicle/pedestrian maintenance of traffic appropriate for the nearby CTA station entrance.

2. Please explain why this project could not be bid using the city's traditional bid process and the need to use JOC Procurement system.

This project has been selected for JOC due to the unique/custom fabrication requirements associated with the architectural gateway element. In addition, the project is on an expedited schedule in order to be in place prior to planned community "night markets" in early-summer 2010.

3. If the project is a one trade project, please provide additional explanation of why it would be in the city's best interest to do the project under JOC:

Multiple trades will participate.

4. If it is anticipated that over 25% of the project will consist of Non-prepriced items, please provide an explanation on why JOC should be used.

N/A

5. If some elements of the proposed JOC project scope of work are covered by city term agreements, explain why they are included in this JOC project instead of being procured through the term agreements.

Re: M/WBE Participation
Argyle Gateway Identifier
Job Order Contract #09-84-9-046

Dear Mr. Whittaker,

We understand there are M/WBE requirements to be met on all Job Order Contract projects and by using the subcontractors we plan to use, we will have no WBE participation for the above referenced project.

Unfortunately this is a small, specialty project that essentially requires only two major disciplines of work and both are non pre-priced items. We are going to utilize an MBE company for one of the items to help meet our MBE goal, however, there are no WBE companies that perform either of two non pre-prices items so we cannot utilize a WBE company on this project.

Please feel free to contact me with any questions.

Sincerely,

MQ CONSTRUCTION COMPANY
