ORDER

Having considered and weighed the Emergency Motion for Continuance and Response, the Motion is DENIED.

Licensee was given more than ample time to order and tender the transcript required to proceed with its appeal. While this body understands that sometimes preparation of a transcript is delayed by a court reporting company even when it is ordered in a timely manner – there is simply no excuse for not even having ordered the transcript by the September 1, 2021 due date given to Licensee by way of Order from the August 11, 2021 status call. Circumstances that occurred after September 1st, tragic as they may be, do not excuse failure to at least order the transcript by that date.

FURTHERMORE, Order and tender of transcripts by Licensee was required to proceed with this appeal. As the Licensee has not complied with the requirements to proceed with the appeal by the date Licensee was ordered to do so, Licensee cannot proceed, and this appeal is hereby

DISMISSED with prejudice. The dismissal is with prejudice because it is well past the TWENTY (20) days from the date of the issuance of the discipline in which Licensee may file an appeal.

This matter is also hereby stricken from the License Appeal Commission docket.
