**RE: Sewer Main Replacement Project #7103**

Dear Neighbor,

In coordination with Mayor Rahm Emanuel's "Building a New Chicago" infrastructure improvement program, and at Alderman Burke's request, I would like to provide you with information about an upcoming sewer main construction project in your neighborhood.

In early March, the Department of Water Management's private contractor will begin preliminary construction work around Kedzie and 52<sup>nd</sup> Street. In late April, Department of Water Management crews will begin to install 1,650 feet of 36-inch, 30-inch, and 24-inch new sewer main in W. 52<sup>nd</sup> Street (from Kedzie to Whipple), in S. Whipple Street (from 52<sup>nd</sup> Street to 130' south), and in W. 52<sup>nd</sup> Street (from Francisco to Sacramento).

During our contractor's work,, northbound traffic on Kedzie will be detoured from 55<sup>th</sup> Street, east to California, north to 51<sup>st</sup> Street, and back to Kedzie. Southbound traffic on Kedzie will be reduced to one lane. Otherwise, when we are working in the street, we may close it to traffic for safety reasons, but you will always be able to reach your home or business. Outside of working hours, a travel lane will be left open for local traffic only.

We will post our work area for "No Parking" as needed during work hours (generally 7am-4pm). We are agreeable to parking outside of those hours, but cars will need to be moved by the start of the next workday. We will try to preserve as much parking as possible.

We know that construction always involves inconveniences and noise. We will do everything possible to maintain your quality of life throughout these projects, and conducting ourselves as good and thoughtful neighbors in the course of our presence on your street.

Should you have any questions or concerns, you can either ask the construction foreman during the project, or call any of the following numbers:

- 24-Hour Service and Information Line: 311
- 14th Ward Office: 773-471-1414
- DWM Office of Public Affairs: 312-744-6635

Lastly, if you don't already have one, I ask you to consider the installation of a water meter in your home to help you save money on your water bill. For more information on this free program, go to [www.metersave.org](http://www.metersave.org).

Thank you in advance for your patience and cooperation during this important infrastructure improvement project.

Sincerely,

Thomas Powers  
Commissioner
