

RIDE-HAIL PASSENGER SAFETY TIPS

- Enter and exit the vehicle curbside – do not enter or exit the vehicle in the street, intersections, crosswalks, bike or bus lanes, or on expressways.
- Look before opening doors – check for pedestrians, bikes, and other cars before opening doors.
- Do not attempt to fit more passengers in the vehicle than available seat belts allow.
- If traveling with a young child, passengers should bring a car seat to secure the child in the vehicle.
- For public safety, the City of Chicago may designate specific ride-hail passenger pick-up locations – follow posted direction and directives from the policy and City personnel.
