

Is your Business Accessible?

Businesses that serve the public must provide full and equal enjoyment of their services, and remove barriers to existing facilities, where such removal is readily available.

- When barrier removal is not readily available, businesses must take other steps to make their facilities accessible such as installing ramps, repositioning shelves, or offering curbside service.
- Businesses must also make reasonable modifications in policies, practices or procedures to accommodate people with disabilities. For example, allowing service animals.

For more information regarding how to make your business accessible, call the CCHR.
