Cover your mouth and nose with a tissue when you cough or sneeze or cough or sneeze into your upper sleeve, not your hands.

Put your used tissue in the waste basket.

Emergency Preparedness Program

City of Chicago
Mayor Rahm Emanuel

PREPARE CHICAGO
AN INITIATIVE OF HEALTHY CHICAGO
Influenza (flu) and other serious respiratory illnesses, like respiratory syncytial virus (RSV), whooping cough, and severe acute respiratory syndrome (SARS), are spread by cough, sneezing, or unclean hands.

To help stop the spread of germs:

- Avoid close contact with people who are sick.
- Stay home when you are sick.
- Cover your mouth and nose with a tissue when you cough or sneeze.
- Wash your hands often with soap and warm water for 20 seconds. If soap and water are not available, use an alcohol-based hand rub.
- Avoid touching your eyes, nose or mouth.
- Practice other good health habits. Clean and disinfect frequently touched surfaces at home, work or school, especially when someone is ill. Get plenty of sleep, be physically active, manage your stress, drink plenty of fluids, and eat nutritious food.
