

Rules for Large Recyclers - Log of Corrections 6/19/20

Section	Correction
Section 2. Definitions	Corrected the definition of "Applicant" by inserting missing words as follows: "... to accept, handle, Process, or otherwise manage <u>Recyclable Materials at a Large Recycling Facility.</u> "
Section 2. Definitions	Corrected a typo in the definition of Criteria Pollutants by changing "nitrogen dioxides" to the singular " <u>nitrogen dioxide.</u> "
Section 2. Definitions	Corrected a typo in the definition of "Large Recycling Facility by inserting a comma between "Facility that is authorized to accept 1,000 tons or more per day of Recyclable Materials" and "operates a metal Shredder that Processes vehicles"; and inserted the word "or" after the latter.
Section 2. Definitions	Corrected the definition of "Mechanical Sorting Equipment" by removing extra words, "the use of," before "powered sorting equipment such as, but not"
Section 2. Definitions	Corrected the definition of "Municipal Separate Storm Sewer System" or "MS4" by inserting missing words and replacing the ellipses with " <u>having jurisdiction over disposal of sewage, industrial wastes, storm water, or other wastes.</u> "
Section 2. Definitions	Corrected the definition of "Municipal Waste" by inserting missing words as follows: "... but does not include non hazardous <u>Special Waste.</u> "
Section 3.8	Revised paragraph to correct wording and insert Zoning Code references regarding Special Uses as follows: "If applicable, the Design Report shall contain a copy of any the variance in the nature of a special use (Special Use (pursuant to Section 17-13-0900 of the Code) or <u>Variation (pursuant to Section 17-13-1100 of the Code) approved by Variance</u>) from the Zoning Board of Appeals (ZBA), and any plans and drawings referenced therein.
Section 3.9.17	Removed redundant section numbers 3.9.17.2 and 3.9.17.3. Inserted missing words "perimeter barrier" as follows: "In addition, adjacent embankments or rail lines may be used towards meeting the above <u>perimeter barrier</u> requirement if such features otherwise"
Section 4.4.3.5	Fixed broken link.
