To city officials,

Our family has lived on 109th and mackinaw for over 20 years. This is our home. It hurts to see that the people who swore an oath to protect us are the ones letting companies dump on us. We should not have to be prisoners in our own homes on windy days which is more than often the case living in Chicago which lies on a jet stream. Please allow us more time to comment.

Sincerely,

Concerned members of the community
