Signed (Owner) : _____ Date: _____

Signed (Contractor) : _____ Date: _____

PERMIT CONDITIONS:

1. All open or broken doors and windows shall be covered to prevent dust emission. Clean-up procedures will be carried out during and after the period of operation to remove accumulated debris and prevent dry materials from becoming wind borne.
2. The compressor will be equipped with sound-suppressing devices to bring operation into compliance with chapter 8-32 of the Municipal Code. Furthermore, time restrictions for construction projects must be observed.
3. Warning signs must be posted in the vicinity of the work area so that the public is made aware of potential injury to eyes, skin and lungs.
4. All painted surfaces to be sandblasted, ground or chemically washed shall be considered to contain leaded paint and precautions on the removal of the contaminated spent abrasive or chemical runoff shall be exercised in accordance with all applicable federal, state and local regulations.
5. The owner and contractor, by signing this application, certify that they will fulfill all the requirements of the permit conditions listed above and the requirements of the City code.
