

COVID-19 Update

September 15, 2020

As of 09/14, emergency travel order applies to 16 states. Utah added; Florida, Idaho, North Carolina, Texas, Hawaii, and Nevada removed. Wisconsin may be added next week.

Designated States
 < 15 daily cases for one week while designated
 Between 10 -15 daily cases per 100k
 Less than 10 daily cases per 100k

Next 5 states	
State	Daily Cases /100k
Louisiana*	14.2
Mississippi*	13.8
Illinois	13.4
Kentucky*	13.3
Idaho	13.1

Note: *This state was on the designated list and is now under 15 daily cases per 100k residents, if these states stay below for another week, they will be taken off the list **Wisconsin is currently above the 15 avg. daily case per 100k resident threshold. Given the volatility of the daily data reports and the disruption that adding a neighboring state to the travel ordinance causes, Wisconsin will not be added to the travel ordinance until it records a second consecutive week above the threshold. ***Florida has been removed from the travel ordinance due to a data reporting anomaly earlier in the month that artificially kept it above the threshold.

★ New Daily COVID-19 Cases, Chicago

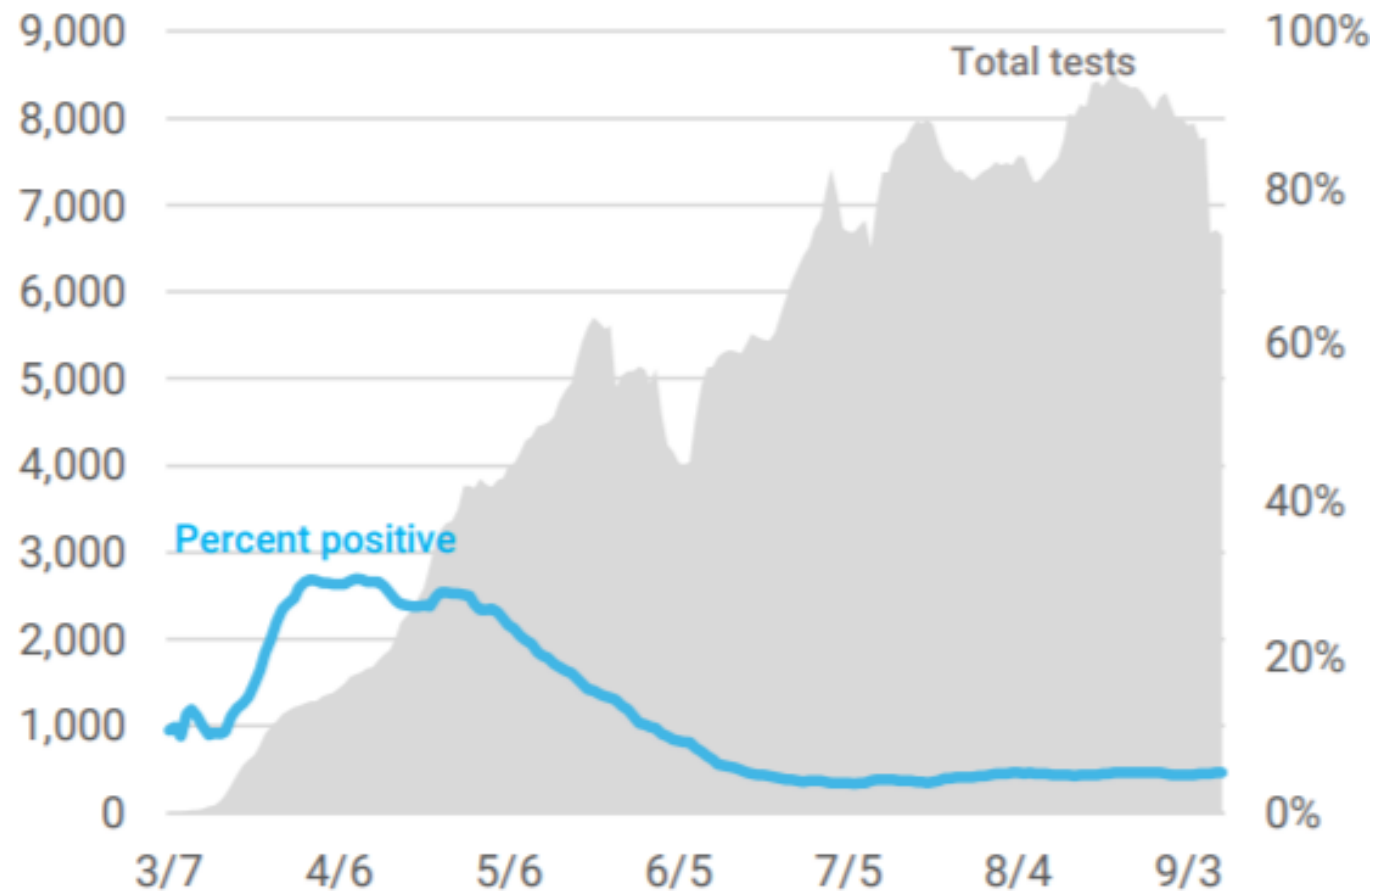

Confirmed daily COVID-19 cases and 7-day rolling average

Current
263
new cases/day
