INVEST
SOUTH WEST

Kick-off Summary & Next Steps

NEW CITY

Mayor Lori E. Lightfoot
Consisting of the Back of the Yards and Canaryville neighborhoods, New City has approximately 41,000 residents living within 4.86 square miles.

FORWARD

Greetings,

On behalf of the entire City of Chicago, thank you for your interest in and support of the INVEST South/West corridor improvement initiative.

The viability of these once thriving neighborhoods has been undermined for the past 70 years through substantial population losses, disinvestment, crime and other systemic issues. The City has never before attempted to rebuild these areas like we are doing today through an unprecedented strategic, community-based approach focusing on public and private resources within 10 targeted community areas.

Unlike any prior initiative, INVEST South/West is layering economic development resources and planning tools within specific geographies to spur the development of new public amenities, stores, public services and other quality-of-life amenities, fostering stable environments and additional public and private growth while reinvigorating our entire City.

Implementation efforts are well underway, and this brochure is a Spring 2020 update on the City’s progress, highlighting priority blocks, community goals and next steps.

In the coming months, your support and participation will be key in moving your community forward as INVEST South/West continues to build momentum and transform the trajectory of our city. Together, we can reverse the decades of decline and build a better, strong, unified Chicago for every resident.

Sincerely,

Lori E. Lightfoot
Mayor of the City of Chicago
The goal of INVEST South/West is to re-activate neighborhood cores that have historically served as focal points for pedestrian activity, shopping, services, transportation, public spaces and quality-of-life amenities for local residents. Without exception, these commercial corridors have experienced public and private disinvestment for nearly 75 years, which has led to reduced property values, public safety concerns, and a corresponding increase in abandoned buildings, vacant lots and blight. INVEST South/West is intended to reverse these systemic trends with targeted improvements that benefit existing residents and businesses.

Funding for INVEST South/West includes $250 million in business incentives made available through City programs involving Tax Increment Financing and the Neighborhood Opportunity Fund. These investments will build on more than $500 million in planned infrastructure improvements that will provide transportation, housing and quality-of-life enhancements that improve the vitality of private and public properties. This includes ongoing infrastructure projects such as FastTracks improvements to the CTA Green Line, the Auburn Park Metra Station, and a new track and field facility in Pullman.

Through the collaboration of multiple public and private partners, INVEST South/West is engaging community stakeholders throughout the South and West sides to build consensus around neighborhood needs and goals; prioritize specific geographies; identify immediate and long-term needs; and ensure future investments will have a catalytic impact involving future improvements.

**NEIGHBORHOOD METHODOLOGY**

The 10 initial neighborhoods were determined in 2019 through a multi-departmental analysis of hundreds of miles of street frontage zoned for commercial or business uses. The analyses included the review of existing business licenses, historic resources, transit services, community plans, demographics, capital investments and other factors. Three dozen potential neighborhoods were subsequently narrowed to 10 by using two primary criteria: the existence of at least one well-developed community plan with a commercial component and the existence of at least one active commercial area at specific nodes.

Leveraging existing plans and local partners, the City’s focus on 10 neighborhoods will enable swift investments that create sustainable improvements and foster additional investment on adjacent blocks.

The 10 initial INVEST South/West community areas will be joined by additional neighborhoods in coming years as the City works to identify and develop strong community-based organizations and actionable plans for growth.
New City stakeholders participated in the Dec. 18, 2019, Invest South/West kick-off celebration at Kennedy-King College.

The family-friendly meeting, one of four held this winter to launch the INVEST South/West initiative, included a broad overview of the initiative, performances by local artists, and an open house with youth activities and food from local chefs. More than 500 attendees listened to presentations about the goals and objectives of INVEST South/West, then interfaced with dozens of public agencies about opportunities to improve the community.

Attendees participated in workshops, reviewed community area maps; identified personal goals for local streets; highlighted opportunity sites; and reviewed existing community plans like the "Back of the Yards Plan: Our American Dream Starts Here" and the "Back of the Yards Neighborhood Plan."

The information was also made available online at www.chicago.gov/investsw, along with an online survey for stakeholders who could not attend the event.

Approximately 2,000 people participated in additional community meetings held in January 2020 in Austin, South Shore and Pullman.
Public Comment Summary

More than 100 written and verbal public comments during the New City kickoff event reflected priorities involving retail offerings, youth resources, housing, blight, and need for building rehabilitation projects. Public feedback was reviewed by planning staff and distilled into main categories that include primary needs and goals, as well as concerns and issues. Summary statements are listed below. These priorities will guide community-based policies and decision-making as improvements are strategized and financed in the months ahead.

**Primary Needs and Goals**

- Local dining options
- Local retail options
- Destination-oriented activities for residents and citywide residents
- Incubation facilities for new and growing businesses
- Parks and recreation spaces
- Resources for building rehabilitation projects

**Main Concerns**

- Lack of business activity and places to eat
- Abandoned and deteriorating buildings
- Housing affordability
- Liquor stores/operating hours
- Vacant lots not being maintained
- Lack of after-school youth mentoring and violence prevention

Budget Goals

To help determine spending priorities for public realm improvements, planning participants were asked to select up to three types of enhancements from 11 types of examples, such as reusing right-of-ways typically used for cars as spaces for people, hosting events in parks and other public facilities, and making streets and other thoroughfares safer to cross. The top four New City selections from the December meeting are reflected below. Additional data is available at www.chicago.gov/newcity.

- **Reclaimed Spaces**
- **Community Programming**
- **Public Art**
- **Enhanced Landscapes**
Responses to DPD’s proposal for 47th and Ashland streets to be priority corridors for public and private investments also reflected multiple views.

Statements that summarize most common responses are indicated at far right. Special character buildings that participants noted along the corridors are identified at right and below.

• The 47th Street focus area includes blocks between Damen Avenue and Loomis Street
• The Ashland Avenue focus area includes blocks between 43rd and 47th Streets.

WHAT YOU SAID

Focus Area Comments

“Eastern boundary could be extended to Halsted.”

“Southern boundary could be extended to 51st.”

“Needs incubator spaces for retail.”

“This is a priority intersection for the community.”

“Needs more sit-down restaurants”
The December kick-off meeting was more than a community planning exercise. The event also celebrated the revitalization of the South and West sides with dancers, singers, and family-friendly activities.
WHAT'S NEXT

Participation by INVEST South/West community stakeholders is critical to the initiative’s success. In order to directly reflect community goals, the initiative is coordinating relationships between government, neighborhood groups, ward offices, businesses and residents as work moves forward in 2020.

Starting this spring, the City will work to create “Neighborhood Roundtable” groups for the 10 participating community areas. Consisting of representatives from city agencies, aldermanic offices and neighborhood organizations, each roundtable will help advance local goals through a broad, cross-disciplinary approach that leverages the insights, wisdom, creativity and resources of local stakeholders.

Information on the New City Neighborhood Roundtable will be made available online at www.chicago.gov/newcity.

Also starting this spring, DPD will be coordinating with the Chicago office of LISC (Local Initiative Support Corporation) and Main Streets America to provide technical assistance for corridor revitalization initiatives. The coordination will include the designation of commercial corridor project managers that will work with local roundtables, aldermen and businesses to help ensure improvements reflect community needs, including infrastructure upgrades and private investments facilitated through forthcoming Neighborhood Opportunity Fund applications and Requests for Proposals for private and City-owned land.

Additional timeline information is below.
