Series: Information Technology

CLASS TITLE: ASSISTANT DIRECTOR OF INFORMATION SYSTEMS

CHARACTERISTICS OF THE CLASS

Under direction, assists in managing a City department's computer systems including the design, development, installation, operation, and maintenance of its hardware, software, and communications networks, and performs related duties as required

This class title has been designated as a multi-tiered title. Positions allocated to this title code are assigned to large City departments and have been designated as such on the Senior Manager Salary Plan.

ESSENTIAL DUTIES

- Assists in directing staff in the analysis of business practices and operations of a City department and the development of computer systems to automate operations and improve information processing
- Works with departmental managers to re-design organization operations and apply information technology solutions to identified business needs
- Provides guidance in the planning, design, and maintenance of networks to support information systems
- Supervises staff responsible for monitoring and maintaining the operations of local and wide area network (LAN/WAN) systems
- Assists in supervising the development and modification of user and operating systems applications
- Supervises the installation of computer hardware and software including the provision of training and technical support to users
- Assists in assuring the quality, functionality, connectivity, and compatibility of the department's computer software and hardware equipment
- Supervises personnel responsible for overseeing information technology support
- Works with systems consultants in the development, installation, and modification of computer systems
- Assists in preparing the annual budget for the purchase and maintenance of hardware, software, and related supplies for the department, as required
- Assists in overseeing the development, enhancement, and installation of Web applications for the City Intranet and the Internet, as required
- Participates in the review of information technology (IT) specifications detailed in new requests for proposals and contracts, as required

NOTE: *The list of essential duties is not intended to be inclusive; there may be other duties that are essential to particular positions within the class.*

MINIMUM QUALIFICATIONS**Education, Training, and Experience**

- Eight (8) years of work experience in data processing systems design, implementation, and management, of which three (3) years are in a supervisory role related to the responsibilities of the position, **OR**
- Graduation from an accredited college with an Associate's degree in Computer Science, Information Technology/Systems or a directly related field, plus six (6) years of work experience in data processing systems design, implementation, and management, of which three (3) years are in a supervisory role related to the responsibilities of the position, **OR**
- Graduation from an accredited college or university with a Bachelor's degree in Computer Science, Information Technology/Systems or a directly related field, plus four (4) years of experience in data processing systems design, implementation, and management, of which three (3) years are in a supervisory role related to the responsibilities of the position, **OR**
- Graduation from an accredited college or university with a Master's degree or higher in Computer Science, Information Technology/Systems or a directly related field, plus three (3) years of experience in data processing systems design, implementation, and management, of which three (3) years are in a supervisory role related to the responsibilities of the position

Licensure, Certification, or Other Qualifications

- None

WORKING CONDITIONS

- General office environment
- Stressful situations with imposed deadlines

EQUIPMENT

- Standard office equipment (e.g., telephone, printer, photocopier, fax machine, calculator)
- Personal computers and peripheral equipment (e.g., desktop computer, laptop computer, hand-held computer, computer terminals, modems, scanner)
- Client/server computer
- Micro and mini computers
- Local area/wide area communications network

PHYSICAL REQUIREMENTS

- No specific requirements

KNOWLEDGE, SKILLS, ABILITIES, AND OTHER WORK REQUIREMENTS**Knowledge**

Considerable knowledge of:

- *commercial computer systems applications and their capabilities
- *computer systems management
- *IT systems development practices, standards, and procedures
- *supervisory methods, practices, and procedures

Moderate knowledge of:

- business process re-engineering principles and practices

Some knowledge of:

- *applicable computer software packages
- *methods, practices, and procedures for analyzing and resolving computer-related problems
- *computer operating systems
- programming logic, data manipulation, and integrated environments
- Web design principles and technologies
- management methods, practices, and procedures

Knowledge of applicable City and department policies, procedures, rules, regulations, and ordinances

Skills

- *ACTIVE LEARNING - Understand the implications of new information for both current and future problem-solving and decision-making
- *ACTIVE ENGAGEMENT - Give full attention to what other people are communicating, take time to understand the points being made, ask questions as appropriate, and not interrupt at inappropriate times
