CLASS TITLE: COORDINATOR OF MAINTENANCE REPAIRS

CHARACTERISTICS OF THE CLASS
Under general supervision, coordinates and oversees preventive maintenance and repair activities for departmental buildings and facilities including terminals and surrounding grounds at city airports, and performs related duties as required

ESSENTIAL DUTIES
- Inspects identified departmental buildings and facilities located throughout the city to determine material and manpower requirements
- Performs visual inspections of airport terminals, warehouses and public restrooms for cleanliness
- Uses a computerized maintenance management system to identify, tag and inventory new electrical and mechanical equipment used in the repair and maintenance of city facilities
- Uses an electronic scheduling system to create preventive maintenance work orders and repair schedules and to notify trades personnel of pending assignments
- Confers with foremen of various skilled trades to review projected timetables
- Interacts with departmental and contracted employees and airport tenants to discuss repair and maintenance requests and pending projects
- Monitors the status of projects for conformance with timelines and inspects the quality of completed repair and maintenance work
- Updates and maintains detailed records of repair and maintenance activities and prepares related reports
- Analyzes variances between estimated and actual labor hours and material usage for review by department management
- May assist in creating performance measures for trades personnel

NOTE: The list of essential duties is not intended to be inclusive; there may be other duties that are essential to particular positions within the class.
