CLASS TITLE: PUBLIC HEALTH NUTRITIONIST II

CHARACTERISTICS OF THE CLASS

Under supervision, performs fully functional professional nutrition assessment and counseling duties providing services to individuals, groups, and families in a public health center or clinic, and performs related duties as required

ESSENTIAL DUTIES

- Reviews nutritional, health history, and medical data of clients to evaluate the adequacy of their dietary intake, determine their risk factors, and assess their nutritional and dietary needs
- Develops individualized nutritional care plans and counsels clients and their families on good nutrition and dietary practices
- Provides nutritional services and counseling including in-depth nutritional counseling to high risk clients
- Conducts individual counseling and group sessions on nutrition education to promote healthy dietary habits
- Schedules follow-up visits with clients to monitor and encourage compliance with prescribed nutritional care plans
- Works on a team with other health care professionals to monitor the progress of high risk clients and to coordinate other needed health services to clients and their families
- Prescribes food packages to clients enrolled in the Women, Infants, and Children (WIC) Program
- Documents nutritional services provided in client files and records and maintains computerized client assessment and evaluation records
- Prepares reports on clients serviced and related work activities
- Consults with client's referring physician for clarification of orders, as required
- Provides guidance and direction to lower level Public Health Nutritionists and Nutrition Technicians, as required
- Conducts workshops on good nutritional practices designed to promote healthy eating habits and to help prevent or treat illnesses, as required

NOTE: The list of essential duties is not intended to be inclusive; there may be other duties that are essential to particular positions within the class.
