## **SECTION III: QUESTIONS SUBMITTED FOR CLARIFICATION OF THE SPECIFICATION**

### **Questions**

#### **Question 1:**

Can the leasing and equipment cost be separated?

#### **Answer:**

No. This is a purchase contract and it has no bearing on equipment leasing.

**Answer:**

Batteries should be priced as one complete set for a unit.

**Question 15:**

Does Estimated usage equate to quantity of each item on page 102?

**Answer:**

It is the City's assumption that the question refers to quantities not qualities as stated in a question received from a vendor. Estimated quantities listed on the Proposal Pages are the City's best estimate usage utilized during the life of the contract. However, quantities are not guaranteed. Refer to Section 5.2, Estimated Quantities/Level of Service in the Specification.

**Question 16:**

The Lift Heights for the Propane and Diesel (Pages 82 & 83) are not shown in the Specification. Can this information be provided, since price is dramatically affected?

**Answer:**

Specification does not have specific lift height requirements, due to customers from multiple departments and locations that do not give us a limited set of use cases from which we can easily determine a height requirement.
