SUBJECT: Emergency Request For Proposal (RFP) For Operation Of DOE’s Household Hazardous Waste Facility - Addendum

As previously stated in the request for concurrence memorandum dated July 25, 2006; DOE solicited bids from four companies and subsequently received three responses. The firms who submitted proposals were:

- SET Environmental, Inc. - $74,632
- Heritage Environmental Services, Inc. - $84,176
- Insite Managed Services, LLC (WBE) - $95,658

DOE’s initial request identified SET’s ability to satisfy the requirements of the RFS while providing the specialized technical services requested.

The requisition (#28850) amount initially entered for this project was $206,075.00. SET Environmental proposal cost came in at $74,632 for six months worth of work. The requisition will be adjusted accordingly upon return from DPS. However, we need to have a standard agreement for this emergency contract with the flexibility to increase the dollar amount for a longer period of service (at least one year) if the current RFP in development with DPS has not been advertised and a contract awarded.

If you have any questions, please contact Michael Woods 744-9131.
Your assistance is greatly appreciated. Thanks in advance.
