Pursuant to Section 2-92-644 of the Municipal Purchasing Act, I am authorizing an Operational Emergency for you to contract for Industrial Cleaning of HVAC Systems. Based upon information received from members of your staff, I have determined that this procurement is necessary to meet a bona fide emergency.

Any amount in excess of $100,000.00 approved here will be subject to additional authorization and will be subject to additional authorization and will be limited so as not to exceed the $250,000.00 limit established by statute.
DATE:       December 11, 2007

TO:        Douglas Yerkes, P.E.
            Acting Chief Procurement Officer

RE:        Request for Emergency Contract
            Service:    Emergency Industrial Cleaning of HVAC Systems
            Vendor:     SERVPRO of Orland Park/Barrington
            Cost:       Not to Exceed $100,000.00

The Department of Aviation (DOA) respectfully requests an emergency contract be awarded to SERVPRO of Orland Park/Barrington in order to remove a chemical dust from specific HVAC equipment and ductwork and affected concession leaseholds in Terminal 2 of Chicago O’Hare International Airport (O’Hare). Attached please find the cost estimate from SERVPRO for the work services requested by DOA.

On Wednesday, December 5, 2007, the Chicago Fire Department (CFD) Hazardous Materials unit was mobilized to a public health/industrial hygiene incident in O’Hare Terminal 2. In addition to the DOA and the CFD staff on site, the Illinois Environmental Protection Agency (IEPA) and the Chicago Department of Environment also responded to the incident. The incident initially involved airport passengers reporting an unusual odor in a concession area of Terminal 2. The CFD and the DOA determined later in the day that a chemical dust of potassium permanganate, cleaning agent (dust), was introduced into the ductwork serving that Terminal and several retail concessions. The DOA believes that the incident was caused by poor cleaning/installation of activated charcoal air filters for the air-handling unit serving area. Although the CFD determined that the dust was non-toxic based on the product Material Safety Data Sheet, the residual dust turns purple upon contact with water and may cause minor acute health effects such as skin irritation. In order to assure the traveling public that our facility was safe and that the concessions met public health, the DOA initiated steps to eliminate the dust immediately. The IEPA recommended that DOA hire an outside company to clean the air handling unit, air ducts, and affected concession areas in order to remove all residual dust.

Four concessionaires closed their operations in order for the DOA to remedy the situation. From a safety, health, and welfare perspective, DOA deemed the potassium permanganate cleanup to be a bona fide emergency.

On Thursday, December 6, 2007, the DOA investigated a number of procurement options for use in this emergency cleanup. First, the DOA contacted Heritage Environmental Services, the City’s former environmental response contractor, and they declined the work, stating that they were not equipped to provide this type of service.

Second, the DOA consulted with the DOE and the Department of Procurement Services (DPS) regarding other contract mechanisms, such as term contracts and job order contracts (JOC), but we found no contracts that met the scope of work for this emergency cleanup. Finally, the DOA contacted SERVPRO of Orland Park/Barrington via telephone, explained the services needed, and requested that SERVPRO come to O’Hare to view the affected areas for purposes of developing a cost estimate. Although the DOA’s preference was to get SERVPRO at O’Hare that day, SERVPRO stated that their technician could visit O’Hare on the following morning (i.e., Friday). The DOA also searched DPS’ on-line directory of MBE/WBE firms for companies listed under “environmental response,” “industrial cleaning,” “industrial hygiene,” and “disaster recovery,” and found no listings in any of these categories. The DOA was made aware of SERVPRO’s capability of performing the needed services from one of the City’s environmental and industrial hygiene consulting firms, Camow, Conibear & Assoc.

By 11:00 a.m. on Friday, December 7, 2007 (i.e., within 48 hours of the initial airport passenger complaints), SERVPRO visited the affected area and stated that, if hired, they could perform the work. At the DOA’s request, SERVPRO provided an initial cost estimate for industrial cleaning of the HVAC system only, specifically the Terminal 2 air-handling unit and the air ducts leading from the air-handling unit to the appropriate concession spaces. The industrial cleaning work requested herein is unique, in that the DOA has requested that SERVPRO remove all normal dust and debris incidental to typical HVAC operations for Terminal 2, but also to remove any and all residual potassium permanganate dust in the air handling unit and air ducts.

Based on the unanticipated and unwanted introduction of the dust into a portion of the Terminal air-handling system, the atypical nature of the cleanup work required to remove the chemical dust, DOA’s desire to re-open the concession operations in Terminal 2 as soon as possible, and DOA’s desire to assure the traveling public of the safety, health, and welfare of O’Hare as a public facility, the DOA believes that an emergency contract is warranted for this situation.

At the present, clean up is ongoing and the DOA industrial hygienist is testing swab-samples. The anticipated completion of clean up is expected on or about noon Wednesday, December 12, 2007. The Chicago Department of Public Health has indicated they will utilize the DOA hygienists report as part of their evaluation to certify affected concessions are able to reopen.

B. The certifications, disclosures, and acknowledgments contained in this EDS will become part of any contract or other agreement between the Applicant and the City in connection with the Matter, whether procurement, City assistance, or other City action, and are material inducements to the City's execution of any contract or taking other action with respect to the Matter. The Disclosing Party understands that it must comply with all statutes, ordinances, and regulations on which this EDS is based.

C. The City's Governmental Ethics and Campaign Financing Ordinances, Chapters 2-156 and 2-164 of the Municipal Code, impose certain duties and obligations on persons or entities seeking City contracts, work, business, or transactions. The full text of these ordinances and a training program is available online at www.cityofchicago.org/Ethics, and may also be obtained from the City's Board of Ethics, 740 N. D. If the City determines that any information provided in this EDS is false, incomplete or inaccurate, any contract or other agreement in connection with which it is submitted may be rescinded or be void or voidable, and the City may pursue any remedies under the contract or agreement (if not rescinded, void or voidable), at law, or in equity, including terminating the Disclosing Party's participation in the Matter and/or declining to allow the Disclosing Party to participate in other transactions with the City. Remedies at law for a false statement of material fact may include incarceration and an award to the City of treble damages.

E. It is the City's policy to make this document available to the public on its Internet site and/or upon request. Some or all of the information provided on this EDS and any attachments to this EDS may be made available to the public on the Internet, in response to a Freedom of Information Act request, or otherwise.
