Re: Request for Vendor Limit Increase
PO 23830 – Specification No. 92379
Allied Building Products
Emergency Contract for Roofing Supplies

The Department of General Services (DGS) has an active contract with the vendor above for the services listed above. DGS advertised this requirement for a new five year term agreement under Requisition No. 53955 but did not receive any bids. As a result, DGS plans to re-bid this specification. In the meantime, the current balance will not be enough to meet the future needs the department may have until a new contract is awarded.

DGS is requesting a vendor limit increase to purchase roofing materials and supplies until such time that a new term agreement is awarded. DGS will require $30,000.00 for projected spending through the re-bid process.

It is critical to DGS operations that we have a means to purchase these materials. DGS manages over 400 facilities citywide. DGS trades staff make routine repairs to roofs, as necessary, utilizing the supplies included in the Roofing Materials and Supplies specification. Failure to make these needed repairs may result in costly water damage to the structure and equipment. Failure to maintain and repair these facilities may jeopardize the safety of city employees, as well as the general public.
