## UTILIZING JOC FOR CITY CONSTRUCTION PROJECTS

**Fund Strip:** 02-415-84-2030-7363-0540-41154 151

For the proposed projects please complete items 1 and 2 below. As appropriate, complete items 3, 4 and 5.

| 1. | Please describe the major features of the project:  
   The West Quincy Street Freight Tunnel emergency work requires the bracing of the interior tunnel liner. The bracing of the tunnel liner will prevent the tunnel from collapsing under the Kennedy Expressway. |
| 2. | Please explain why this project could not be bid using the City's traditional bid process and the need to use the JOC procurement system:  
   The scope of work includes the fabrication and placement of structural steel members and screw jacks within the tunnel system. This JOC scope cannot be done by the in-house forces because of the specialized nature and equipment needed for working in a confined space tunnel system. To prevent further damage to the structural integrity of the freight tunnel and not cause a disruption to the Kennedy Expressway this work must be expedited immediately. |
| 3. | If this project is a one trade project, please provide additional explanation of why it would be in the City's best interest to do the project under JOC:  
   Not applicable - various trades will participate |
| 4. | If it is anticipated that over 25% of the project will be non-prepriced, please provide an explanation on why JOC should be used:  
   Not applicable |
| 5. | If some elements of the proposed JOC project scope of work are covered by City Term Agreements, these elements should be removed from the JOC project scope of work. If it is not desirable to do so, please explain:  
   Not applicable |
