UTILIZING JOC FOR CITY CONSTRUCTION PROJECTS

For all proposed projects please complete items 1 and 2 below. As appropriate, complete items 3 through 5. NOTE: The following documents must be attached to the MOA:

1.) A cost estimate; 2.) This Attachment A.

1. Please describe the major features of this project: This is the 30th project in the new residential street lighting program for the Mayor's Office. It's in the 17th Ward on Morgan Street between 7500 South and 7700 South. See Attachment "A" of J01-038.A for details.

2. Please explain why this project could not be bid using the City's traditional bid process and the need to use the JOC procurement system:

The Bureau of Electricity had planned to do this job with City forces, but due to our work load, we can't do it in a timely manner. The Bureau of Electricity can't use the traditional bid process because of the time frame involved. The Bureau of Electricity established JOC to help us manage these situations when they occur.

3. If this project is a one trade project, please provide additional explanation of why it would be in the City's best interest to do the project under JOC:

Multiple trades involved.

4. If the proposed project is less than $200,000 the amount of non-priced work must be less than 25%. If the proposed project is valued at $200,000 or more, the amount of non-priced work must not exceed 15%. Please explain if it is anticipated that these limits will be exceeded:

N/A

5. If some elements of the proposed JOC project scope of work are covered by City Term Agreements, these elements should be removed from the JOC project scope of work. If it is not desirable to do so, please explain:
