DISCLOSURE OF RETAINED PARTIES

A. Definitions and Disclosure Requirements.

1. As used herein, the term "Contractor" means a person or entity who has any contract or lease with the City of Chicago.

2. Pursuant to Executive Order 97-1, every city contract and lease must be accompanied by a disclosure statement providing certain information and attorneys, lobbyists, accountants, consultants, subcontractors, and other persons whom the Contractor has retained or expects to retain with respect to the contract or lease. In particular, the Contractor must disclose the name of each such person, his or her business address, the nature of the relationship, and the amount of fees paid or estimated to be paid.

3. The Contractor is not required to disclose employees who are paid solely through the Contractor's regular payroll.

4. "Lobbyist" means any person (a) who for compensation or on behalf of any person other than himself undertakes to influence any legislative or administrative action, or (b) any part of whose duties as an employee of another includes undertaking to influence any legislative or administrative action.

B. Certification

Contractor hereby certifies as follows:

1. This Disclosure relates to the following transaction:

The 2004 Fire Department Window Replacement Program consist of replacing exterior windows at 9 Firehouse locations. This program is a joint venture between the DGS Trades and a contractor. The program is structured where the DGS Trades provide interior finishes such as plastering, painting and miscellaneous carpentry. DGS also provides the relocation of any Fire Department operational equipment necessary to execute this work. The Contractor scope of work associated with this program is as follows:

- Remove and dispose of existing window sash and frame
- Provide and install new window frame and sash
- Provide and install aluminum closure panels and trim
- Caulk new window frames to masonry openings

The estimated Project Budget per site is $75,000.00

The Department of General Service requests the use of the JOC Procurement System as the contracting method for this program. We feel that JOC would be appropriate for the following reasons:

- The rework of existing plastering and painting is almost always required for these projects. DGS has elected to self perform these items in an effort to reduce the cost of this work and therefore give us the ability to complete additional locations. Also any hidden conditions that must be addressed during window installation are handled by the DGS trades. The JOC Program facilitates this type of approach.

- The JOC Unit Price Book and Technical Specifications adequately cover the scope of work. DGS and Procurement have spent considerable time incorporating the appropriate Unit Price line items in the Unit Price Book. These line item unit prices reflect our performance specifications for this program.

- With the use of JOC DGS is able to contract for and execute this without using a design consultant. Because the performance specification is already covered in the JOC Unit Prices the scope of work can be conveyed in a simple window schedule matrix. This approach saves the time and expense of retaining a design consultant to develop drawings for each location and a complete performance specification.

- Replacement of Firehouse windows is a seasonal project. A higher level of quality is achieved when these windows are installed during the summer months. Currently the commercial window fabrication industry is experiencing very long lead times for providing the type of windows required for this project. In order to have these windows installed prior to November 1, 2004 the window order must be placed no later than May 1, 2004. By using the JOC Procurement system we can achieve this schedule.

If you should have any questions or require any additional information please contact Jerry McGleam of my staff at 744-4749.
