UTILIZING JOC FOR CITY CONSTRUCTION PROJECTS

For all proposed projects please complete items 1 and 2 below. As appropriate, complete items 3, 4 and 5.

(Attach to the MOA)

1. Please describe the major features of the project:

   See Attached Memo Authorization Letter.

2. Please explain why this project could not be bid using the City’s traditional bid process and the need to use the JOC procurement system:

   The sluice gates are currently in the water above the shaft openings but are only constrained by a metal cable looped over an anchor bolt. However, the metal cable could be in danger of corroding and failing, thus allowing the sluice gate to fall and causing interruptions of water flow to Jardine Water Purification Plant.

3. If this project is a one trade project, please provide additional explanation of why it would be in the City’s best interest to do the project under JOC:

   N/A

4. If it is anticipated that over 25% of the project will be non-prepriced, please provide an explanation on why JOC should be used:

   N/A

5. If some elements of the proposed JOC project scope of work are covered by City Term Agreements, these elements should be removed from the JOC project scope of work. If it is not desirable to do so, please explain:

Subject: Notification of New JOC Project-Harrison/Dever Crib (Install Sluice Gate Guides) Project No. 03-04-068

Hi Dale!

This Department is requesting emergency approval to begin mobilization for the subject project. The contractor is required to install sluice gate restraining guides, railings and other applicable appurtenances, at the subject location. Since the Contractor will be required to work at a isolated site far off the shores of Lake Michigan, it is imperative for them to start this construction work immediately, prior to the start of the colder weather season.

The cost of the project is approximately $110,000.00.

The reason for the emergency is because the sluice gates are currently in the water above the shaft opening constrained by a metal cable looped over an anchor bolt. This metal cable could be in danger of corroding and failing, thus allowing the sluice gate to fall and causing interruption of water flow to Jardine Water Purification Plant.

The Memo-authorization request is currently being circulated for signature and will be forth coming in a few days!

For further information call me at 744-5067.

Sincerely

Richard Patrick
