1. Please describe the major features of this project:
   Investigate & repair major facility drainage problems, to include installing additional drains, repair parking pavement, install new landscaping & fencing.

2. Please explain why this project could not be bid using the City's traditional bid process and the need to use JOE procurement method.
   The sewer repairs were expedited due to health & safety concerns of the fire company occupants. The pavement replacement portion of this project is directly related to the sewer repair work.

3. If this project is a one trade project, please provide additional explanation of why it would be in the City's best interest to do the project under JOE. This is a multi trade contract.

4. If it is anticipated that over 25% of the project will consist of Non-Prepriced Items, provide an explanation on why JOE should be used instead of a city-wide term agreement:
   We do not anticipate any NPP items.

5. If some elements of the proposed JOE project scope of work are covered by City Term Agreements, list the elements that should be removed from the JOE project. Attach additional pages if needed.
   The city does not have a term agreement for drainage & parking lot repairs.
