F01a  JOC MOA
Request for use of JOC Procurement System
2004 Chicago Fire Department Kitchen Renovations

Program Summary

The 2004 Chicago Fire Department Kitchen Renovation Program consists of complete renovations to existing firehouse kitchens. DGS and CFD have identified 5 firehouse locations that will receive renovations in 2004. The scope of work associated with this program is as follows:

- Demolition of existing kitchen cabinets and counter tops
- Upgrade electrical services and lighting as required
- Upgrade plumbing as required
- Provide and install new stainless steel kitchen cabinets and counter tops
- Install new flooring and ceilings as required.
- Plaster repair and painting.

The estimated project budget per site is $ 85,000.00

The Department of General Services request the use of the JOC Procurement System as the contracting method for this program. We feel that JOC would be appropriate for the following reasons:

- The JOC Unit Price Book and Technical Specifications adequately cover the scope of work. DGS and Procurement Services have spent a considerable amount of time selecting the line items to be incorporated into the UPB and establishing the acceptable pricing for each line item.

- The JOC Procurement System allows us to contract for this work without complete bid drawings and specifications. The development of complete bid drawings and specifications would take approximately 6 to 8 weeks to develop. This time frame along with the time it takes to bid and award these projects as well as the lengthy fabrication time for the stainless steel cabinets and counter tops would hinder our ability to complete these projects in 2004.
