For all proposed projects please complete items 1 and 2 below. As appropriate, complete items 3 through 5. NOTE: The following documents must be attached to the MOA: 1.) A cost estimate; 2.) This Attachment A.

1. Please describe the major features of this project: This project is installing a new double sided residential street lighting system of Menard Avenue from Madison Avenue to Washington Avenue. Bureau of Electricity will supply Helix Foundations davit poles and piggyback fixtures which Horizon will install. Horizon will directional bore conduit, install handholes and supply all material and equipment needed.

2. Please explain why this project could not be bid using the City's traditional bid process and the need to use the JOC procurement system:

The Bureau of Electricity had planned to do this job with City forces, but due to our work load, we can't do it in a timely manner. The Bureau of Electricity can't use the traditional bid process because of the time frame involved. The Bureau of Electricity established JOC to help us manage these situations when they occur.

4. If the proposed project is less than $200,000 the amount of non-prepriced work must be less than 25%. If the proposed project is valued at $200,000 or more, the amount of non-prepriced work must not exceed 15%. Please explain if it is anticipated that these limits will be exceeded:

5. If some elements of the proposed JOC project scope of work are covered by City Term Agreements, these elements should be removed from the JOC project scope of work. If it is not desirable to do so, please explain:
