SUBJECT: Job Order Contract - Department of Water  
Project Description: Jardine Water Purification Plant  
Repair Crack in Base Slab(REVISION)  
Project No. 03-02-064R  
Contract No. T0968850101  
Spec. No. B09688501

Estimated Cost: $20,000.00  
Funding No.: 001-227-0873360-0540-W706-220540-02305010

October 9, 2003

Dear Mr. Malone:

(The workscope pertaining to this project has been revised to include additional crack repairs done on the slab located at Elevation(+64). This area is located above the offices occupied by the Bureau of Water Distribution. Water was beginning to leak badly into this office space. Therefore, this extra workscope increased the owner’s estimated budget cost by $5,000.00.)

This Department is requesting the Contractor to repair the crack in the base slab, by completing the following workscope:

-Remove all existing coatings, mineral deposits, previous repair materials, and stains. Dispose of all debris in accordance with all applicable codes and guidelines.

-Carve out approximately Twenty(20) lineal feet X 1/4 inch wide X ½ Inch Deep non-leaking cracked material.

-Install Sealant material from bottom to top of crack. Finish flush with top of slab(Elevation -15.00 Feet). Allow sealant material to cure for twelve(12) hours.

-Pressure inject Hydroactive grout into the Twenty(20) lineal feet long leaking crack.

-Carve out pressure injected cracks.

-Install Sealant material from bottom to top of the routed out crack(Pressure injected). Finish flush with top of slab(Elevation -15.00 Feet).
-Repair leaking cracks in slab (Elevation +64) located above offices occupied by Bureau of Water Distribution personnel.

All grout and sealant material shall be applied in accordance with all manufacturer's instructions, applicable codes and guidelines.

Estimated duration of this Project is Thirty (30) calendar days.

Enclosed is the preliminary estimate of cost for the work involved and a project description. Funding for this work is in place. If you concur with this request, please notify this office as soon as possible and forward a copy of the approved memorandum of authorization. For any further information concerning this matter, contact Richard Patrick, Bureau of Water Engineering at 744-5067.

Yours truly,
