UTILIZING JOC FOR CITY CONSTRUCTION PROJECTS

For the proposed projects please complete items 1 and 2 below. As appropriate, complete items 3, 4 and 5.

(Attach to the MOA)

1. Please describe the major features of the project:

   A large spall on the southeast wingwall of the Diversey Ave Bridge over the Chicago River needs to be repaired. The repair will involve sandblasting and specialized grouting equipment. This cannot be performed by City Forces and is not covered by an existing term agreement. It is for these items that we are requesting the use of a Job Order Contract.

2. Please explain why this project could not be bid using the City’s traditional bid process and the need to use the JOC procurement system:

   The project entails a relatively small scope of work. It would not be time or cost effective for us to perform the work through the City’s traditional bid process.

3. If this project is a one trade project, please provide additional explanation of why it would be in the City’s best interest to do the project under JOC:

   N.A.

4. If it is anticipated that over 25% of the project will be non-priced, please provide an explanation on why JOC should be used:

   N.A.

5. If some elements of the proposed JOC project scope of work are covered by City Term Agreements, these elements should be removed from the JOC project scope of work. If it is not desirable to do so, please explain:

   N.A.
