UTILIZING JOC FOR CITY CONSTRUCTION PROJECTS

For all proposed projects please complete items 1 and 2 below. As appropriate, complete items 3, 4 and 5.

(Attach to the MOA)

1. Please describe the major features of the project:

See Attached Memo Authorization Letter.

2. Please explain why this project could not be bid using the City’s traditional bid process and the need to use the JOC procurement system:

This particular vintage of pipe has recorded failures(Serious Watermain leaks) at certain areas in the City Distribution system. Therefore the Chicago Department of Water Management felt it was necessary to test the pipe at this particular critical location to assure its’ structural integrity. However the inspection had to be done prior to the start of the Summer peak water usage season. If we expended additional time to bid this work, the feedermain could fail during the 2004 summer, and enormous amount of people would be without water.

3. If this project is a one trade project, please provide additional explanation of why it would be in the City’s best interest to do the project under JOC:

N/A

4. If it is anticipated that over 25% of the project will be non-prepriced, please provide an explanation on why JOC should be used:

N/A

5. If some elements of the proposed JOC project scope of work are covered by City Term Agreements, these elements should be removed from the JOC project scope of work. If it is not desirable to do so, please explain:

N/A
