UTILIZING JOC FOR CITY CONSTRUCTION PROJECTS

For the proposed projects please complete items 1 and 2 below. As appropriate, complete items 3, 4 and 5.

(Attach to the MOA)

1. Please describe the major features of the project:

This project consists of changing the signal heads at the intersection of Anthony Avenue and Jeffery Boulevard and adjusting the signal timings. These changes are per the request of the Bureau of Electricity and Bureau of Traffic. In addition, some locations need mulch to be placed.

2. Please explain why this project could not be bid using the City's traditional bid process and the need to use the JOC procurement system:

CDOT does not presently have the resources necessary to perform this work. Currently F.H. Paschen is performing work at this intersection. With the upcoming lease of the Skyway work needs to be performed as soon as by the end of this year which does not allow enough time for a competitive bid process.

3. If this project is a one trade project, please provide additional explanation of why it would be in the City's best interest to do the project under JOC:

Does not apply.

4. If it is anticipated that over 25% of the project will be non-prepriced, please provide an explanation on why JOC should be used:

Does not apply.

5. If some elements of the proposed JOC project scope of work are covered by City Term Agreements, these elements should be removed from the JOC project scope of work. If it is not desirable to do so, please explain:

Does not apply.
