UTILIZING JOC FOR CITY CONSTRUCTION PROJECTS

For all proposed projects please complete items 1 and 2 below. As appropriate, complete items 3 through 5. NOTE: The following documents must be attached to the MOA:
1.) A cost estimate 2.) This Attachment A.

1. Please describe the major feature of this project.
   This project is installing a new residential street lighting system in the 11th Ward on Loomis from Archer to 31st. It’s part of Aldermanic Menu Program. B.O.E. will supply davit poles and luminaires which City Lights will install. City Lights will supply helix foundations, piggyback fixtures, handholes, directional bore conduit, and supply all material and equipment needed.

2. Please explain why this project could not be bid using the city’s traditional process and the need to use the JOC procurement system.

   The Bureau of Electricity had planned to do this project with City Forces, but due to our work load, we can’t do it in a timely manner. The Bureau of Electricity can’t use the traditional bid process because of the time frame involved. The Bureau of Electricity established JOC to help us manage these situations when they occur.

3. If this project is one trade project please provide additional explanation of why it would be in the City’s best interest to do the project under JOC.

   Multiple trades involved.

4. If the proposed project is less than $200,000 the amount of non pre-priced work must be less than 25%. If the proposed project is valued at $200,000 or more the amount of non pre-priced work must not exceed 15%. Please explain if it is anticipated if these limits will be exceeded.

   N/A.

5. If some elements of the proposed JOC project scope of work are covered by City term agreements, these elements should be removed from the JOC projects scope of work. If it is not desirable to do so, please explain.
