This purchase is subject to the City of Chicago General Conditions for Supplies. Work, or Professional Consulting Services; Special Conditions, Disclosure Ownership, Acceptance Page, as applicable, which are attached here-to or incorporated herein by reference.
A. **Definitions and Disclosure Requirements.**
   1. As used herein, the term "Contractor" means a person or entity who has any contract or lease with the City of Chicago.
   2. Pursuant to Executive Order 97-1, every city contract and lease must be accompanied by a disclosure statement providing certain information and attorneys, lobbyists, accountants, consultants, subcontractors, and other persons whom the Contractor has retained or expects to retain with respect to the contract or lease. In particular, the Contractor must disclose the name of each such person, his or her business address, the nature of the relationship, and the amount of fees paid or estimated to be paid.
   3. The Contractor is not required to disclose employees who are paid solely through the Contractor's regular payroll.
   4. "Lobbyist" means any person (a) who for compensation or on behalf of any person other than himself undertakes to influence any legislative or administrative action, or (b) any part of whose duties as an employee of another includes undertaking to influence any legislative or administrative action.

B. **Certification**

UTILIZING JOC FOR CITY CONSTRUCTION PROJECTS

For the proposed project please complete items 1 and 2 below. As appropriate, complete items 3, 4, and 5.

(Attach to the MOA)

1. Please describe the major features of the project:
   Removal and replacement of malfunctioning dewatering pumps and monitoring equipment within the Chicago Freight and Trolley Tunnel Systems.

2. Please explain why this project could not be bid using the City’s traditional bid process and the need to use the JOC procurement system:
   The scope of work requires personnel to perform the above tasks within 46 miles of underground tunnels. This JOC scope cannot be done by the in-house forces because of the specialized nature and equipment required for working in a confined tunnel space. Due to the harsh environment of the Freight Tunnel System additional work is required to maintain the existing dewatering systems. The unforeseen work is the direct result of the equipment not being accessible for inspection. The equipment, requiring repair work was not covered under the original Term Agreement. To preserve the structural integrity of the tunnel systems this work must be expedited immediately.

3. If this project is a one trade project, please provide additional explanation of why it would be in the City’s best interest to do the project under JOC:
   Not applicable – various trades will participate.

4. If it is anticipated that over 25% of the project will be non-priced, please provide an explanation on why JOC should be used:
   Not applicable.

5. If some elements of the proposed JOC project scope of work are covered by City Term Agreements, these elements should be removed from the JOC project scope of work. If it is not desirable to do so, please explain:
   Not applicable.
