**UTILIZING JOC FOR CITY CONSTRUCTION PROJECTS**

For the proposed projects please complete items 1 and 2 below. As appropriate, complete items 3, 4 and 5

(Attach to the MOA)

1. Please describe the major features of the project:

   The historic Chicago Children's Fountain was removed from its original home on Wacker Drive and Wabash Avenue due to the Wacker Drive reconstruction project. The fountain is to be re-installed at the northeast intersection of North Avenue and Clark Street as an entrance-way to the Lake front park system. The scope of this job to provide the foundation, make the necessary connections to water and electric services and install the decorative fountain. This work cannot be performed by City Forces and is not covered by an existing term agreement.

2. Please explain why this project could not be bid using the City's traditional bid process and the need to use the JOC procurement system:

   I. It would not be time or cost effective for us to perform the work through the City's traditional bid process. The small scope of work and potential savings from bidding this project is too time consuming and insignificant for traditional bid process.

   II. This item of work cannot efficiently be completed by City Forces and is not covered by an existing term agreements.

3. If this project is a one trade project, please provide additional explanation of why it would be in the City's best interest to do the project under JOC:

   N.A.

4. If it is anticipated that over 25% of the project will be non-prepriced, please provide an explanation on why JOC should be used:

   N.A.

5. If some elements of the proposed JOC project scope of work are covered by City Term Agreements, these elements should be removed from the JOC project scope of work. If it is not desirable to do so, please explain:

   N.A.
