JOC MEMO OF AUTHORIZATION

Utilizing JOC For City Construction Projects

District 20 Police HVAC
5400 N Lincoln Av
Project No: JUP783.A

For all Proposed JOC Projects, Please complete Items 1 and 2 below. As appropriate, Complete items 3, 4 and 5. Attach to MOA (JOC Approval Letter)

1. Please describe the major features of this project.
   The Scope of Work includes an analysis of the current HVAC System, submittal of a detailed report of repairs needed, and related cost of such repairs, including final testing & calibration.

2. Please explain why this project could not be bid using the city's traditional bid process and the need to use JOC Procurement system.
   Analysis of the existing HVAC System needs thorough analysis to build scope. Without a defined Scope of Work, this project cannot be procured using the traditional bid process. The JOC Contractor will work closely with DGS and the Chicago Police Department to accurately define the repairs required to allow for system efficiency.

3. If the project is a one trade project, please provide additional explanation of why it would not be in the city's best interest to do the project under JOC.
   Although a single trade will be used in conducting the HVAC System analysis & related repairs, it is in the City's best interest to use JOC. The PBC has been unsuccessful in resolving the HVAC-related problems for the past 1-1/2 years at this facility. DGS is now managing the facility and is now proceeding with resolving the matter via the JOC contract.

4. If it is anticipated that over 25% of the project will consist of Non-prepriced items, please provide an explanation on why JOC should be used.
   It is not anticipated that the NPP portion of this project will exceed 25%.

5. If some elements of the proposed JOC project Scope of Work are covered by City Term Agreements, these elements should be removed from the JOC Project.
   The HVAC repairs at the District 20 Police Station needed to be performed by an approved Johnson Control vendor. An existing Term Agreement for HVAC repairs was not an certified/approved Johnson Control vendor therefore unable to conduct the specific work.
