For the proposed project please complete items 1 and 2 below. As appropriate, complete items 3, 4, and 5.

(Attach to the MOA)

1. Please describe the major features of the project:
   *Securing all accesses into the Chicago Freight and Trolley Tunnel System.*

2. Please explain why this project could not be bid using the City’s traditional bid process and the need to use the JOC procurement system:
   *The scope of work includes the removal and replacement of standard manhole lids with lockable lids. In addition, security fencing will be installed to prevent unauthorized personnel from entering the tunnel system from private building entrances. This JOC scope cannot be done by the in-house forces because of the specialized nature and equipment required for working in a confined tunnel space. To preserve the structural integrity of the trolley tunnel system this work must be expedited immediately.*

3. If this project is a one trade project, please provide additional explanation of why it would be in the City’s best interest to do the project under JOC:
   *Not applicable – various trades will participate.*

4. If it is anticipated that over 25% of the project will be non-priced, please provide an explanation on why JOC should be used:
   *Not applicable.*

5. If some elements of the proposed JOC project scope of work are covered by City Term Agreements, these elements should be removed from the JOC project scope of work. If it is not desirable to do so, please explain:
   *Not applicable.*
