For all Proposed JOC Projects, Please complete Items 1 and 2 below. As appropriate, Complete items 3, 4 and 5. Attach to MOA (JOC Approval Letter)

1. **Please describe the major features of this project.**

   There is a sunken boat in the North Branch Canal of the Chicago River north of Chicago Avenue. The boat has been partially demolished, but there is a substantial amount of the boat superstructure that remains within 3 ft. of the water surface. The remains of the boat at such shallow depth constitute a hazard to navigation, especially small pleasure craft. CDOT has been charged with removing the rest of the sunken boat as soon as possible. In order to ascertain the scope of the work and the condition of the boat, an underwater inspection by scuba divers has to be carried out.

2. **Please explain why this project could not be bid using the city's traditional bid process and the need to use JOC Procurement system.**

   The proposed work requires specialized personnel and equipment, and the concern for public safety requires that this inspection be completed as soon as possible. It would not be time or cost effective for us to perform the work through The City's traditional bid process.

3. **If the project is a one trade project, please provide additional explanation of why it would be in the city's best interest to do the project under JOC:**

   More Trades - Divers & Investigators

4. **If it is anticipated that over 25% of the project will consist of Non-prepriced items, please provide an explanation on why JOC should be used.**

   N.A.

5. **If some elements of the proposed JOC project scope of work are covered by city term agreements, explain why they are included in this JOC project instead of being procured through the term agreements.**
