Utilizing JOC For City Construction Projects

JOC Project Number: OH-6126-1-001.A  Work Package Number: OH.6126.420.50.070
Project Manager: Craig Evankoe  Telephone Number: (773) 462-7403

For all Proposed JOC Projects, Please complete Items 1 and 2 below. As appropriate, Complete items 3, 4 and 5. Attach to MOA (JOC Approval Letter)

1. Please describe the major features of this project.

   The K9 Facility consists of a fenced in concrete yard with a grassed area for the dogs to run. The facility holds 3 portable explosive magazines (2 relocated from the existing facility, 1 to be purchased under this scope of work), which hold samples for dog training, a shelter for inclement weather (relocated from the existing facility), a lawn hydrant to provide water for the dogs, 3 kennels fabricated from standard fence, and area security lighting.

2. Please explain why this project could not be bid using the city's traditional bid process and the need to use JOC Procurement system.

   This project is an enabling project for the construction of Runway 9L/27R. Adding this work to an existing contract is not feasible since the proposed relocation site is not adjacent to an ongoing contract. The site preparation contract for the runway is currently in construction, however, the K9 facility is in its way. Relocating the facility is necessary during the summer of 2006 in order to finish the preparation for runway paving. Also the site is small and would require substantial coordination between the different construction disciplines. There is a timing issue with the movement of the explosive containers after they are cleaned out and when they can be reloaded. This coordination is to be provided by the JOC contractor. Additionally, the project is time sensitive - using the traditional procurement process, which typically takes 120-180 days or more, will not meet the completion date requirements of OMP. The K9 Facility must be moved now to allow the completion of the site preparation contract.

3. If the project is a one trade project, please provide additional explanation of why it would be in the city's best interest to do the project under JOC:

   The project is multi-trade for concrete, excavation, fence, electrical, sewer and water.

4. If it is anticipated that over 25% of the project will consist of Non-prepriced items, please provide an explanation on why JOC should be used.

   90% of this work will be Pre-Priced and subsequently built using the Construction Task Catalog.

5. If some elements of the proposed JOC project scope of work are covered by city term agreements, explain why they are included in this JOC project instead of being procured through the term agreements.

   Term agreements do not cover this scope of work.
