For all Proposed JOC Projects, Please complete Items 1 and 2 below. As appropriate, Complete items 3, 4 and 5. Attach to MOA (JOC Approval Letter)

1. Please describe the major features of this project.
   The scope of work to be performed under this sub-order is removal and replacement of curb and gutter and sidewalk, removal of existing street lighting and replacement with ornamental poles, tree and grate installation, and removal and replacement of asphalt.

2. Please explain why this project could not be bid using the city's traditional bid process and the need to use JOC Procurement system.
   Alderman Ocasio has stressed the importance of streetscape improvements within the North Avenue corridor. He provided CDOT with tax increment funding to construct streetscape this year. CDOT was to design and then construct in the fall of 2006 using the traditional bid process. The Bureau of Electricity was to construct new ornamental street lighting as part of this project. On June 30, 2006, CDOT was informed that the Bureau of Electricity could no longer meet their commitment to construct the street lighting. This was re-confirmed on July 13, 2006. CDOT has now added street lighting to their construction documents. In the interest of time and in order to meet the construction schedule for 2006, CDOT must use the JOC procurement system.

3. If the project is a one trade project, please provide additional explanation of why it would be in the city's best interest to do the project under JOC:
   Multiple trades: demo, concrete, lighting, landscaping

4. If it is anticipated that over 25% of the project will consist of Non-prepriced items, please provide an explanation on why JOC should be used.
   N/A

5. If some elements of the proposed JOC project scope of work are covered by city term agreements, explain why they are included in this JOC project instead of being procured through the term agreements.
