# UTILIZING JOC FOR CITY CONSTRUCTION PROJECTS

For the proposed projects please complete items 1 and 2 below. As appropriate, complete items 3, 4 and 5

(Attach to the MOA)

1. Please describe the major features of the project:

   There is an existing fountain maintenance contract that allows for the monthly cleaning and maintenance of the decorative fountains in CDOT’s inventory. There are several fountains in need or extensive repairs in order for operation this season. This work cannot be performed by City Forces and is not covered by an existing term agreement.

2. Please explain why this project could not be bid using the City’s traditional bid process and the need to use the JOC procurement system:

   I. It would not be time or cost effective for us to perform the work through the City’s traditional bid process. The small scope of work and potential savings from bidding this project is too time consuming and insignificant for traditional bid process.

   II. This item of work cannot efficiently be completed by City Forces and is not covered by an existing term agreements.

3. If this project is a one trade project, please provide additional explanation of why it would be in the City’s best interest to do the project under JOC:
   N.A.

4. If it is anticipated that over 25% of the project will be non-prepriced, please provide an explanation on why JOC should be used:
   N.A.

5. If some elements of the proposed JOC project scope of work are covered by City Term Agreements, these elements should be removed from the JOC project scope of work. If it is not desirable to do so, please explain:

   The existing term agreement does not cover the work needed.
