For all Proposed JOC Projects, Please complete Items 1 and 2 below. As appropriate, Complete items 3, 4 and 5. Attach to MOA (JOC Approval Letter)

1. **Please describe the major features of this project.**

   The Center lock system of the Van Buren Street Bascule Bridge is in need of emergency repairs. The scope of work is increased due to the fact that, we need to replace central gear, large system equipment including fire protection system and related actuation cartridges etc. It is necessary and urgent in order to operate the bridge. This cannot be performed by City Forces and is not covered by an existing term agreement.

2. **Please explain why this project could not be bid using the city's traditional bid process and the need to use JOC Procurement system.**

   Because this project entails a relatively small scope of work, it would not be time or cost effective for us to perform the work through the City's traditional bid process.

3. **If the project is a one trade project, please provide additional explanation of why it would be in the city's best interest to do the project under JOC:**

   N/A

4. **If it is anticipated that over 25% of the project will consist of Non-prepriced items, please provide an explanation on why JOC should be used.**

   N/A

5. **If some elements of the proposed JOC project scope of work are covered by city term agreements, explain why they are included in this JOC project instead of being procured through the term agreements.**
