For all Proposed JOC Projects, Please complete Items 1 and 2 below. As appropriate, Complete items 3, 4 and 5. Attach to MOA (JOC Approval Letter)

1. Please describe the major features of this project.
   Complete unfinished punchlist items for the PBC after contractor’s subs defaulted. This work will make all aspects of Building Automation System work and talk together. These systems are not working together making the overall system not as energy efficient as the systems were designed for. This has also caused numerous man hours trying to keep buildings running during peak times.
   Finish misc HVAC controls punch list item that were not done under PBC contract due to contractor default. Per punchlist / revised scopes dated 6-19-07

2. Please explain why this project could not be bid using the city’s traditional bid process and the need to use JOC Procurement system.
   This work is very specialized and working with DGS engineers to work out all the issues with these systems it is very difficult to put exact man hours to this. The timing is also very critical as to not shut down equipment during warm or cold times.

3. If the project is a one trade project, please provide an explanation of why it would not be in the city’s best interest to do the project using DGS trades or existing term agreements.
   Multitrade - Sheetmetal, Pipe Fitters, Engineers

4. If it is anticipated that over 25% of the project will consist of Non Pre-Priced items, please provide an explanation on why JOC should be used.
   All items contained in the CTC

5. If some elements of the proposed JOC Project scope of work are covered by city term agreements, these elements should be removed from the JOC Project.
   No
