Attachment A
Utilizing JOC For City Construction Projects

City Hall
121 N. La Salle St.

Project No: JB5-003.E

For all Proposed JOC Projects, Please complete Items 1 and 2 below. As appropriate, Complete items 3,4 and 5.
Attach to MOA (JOC Approval Letter)

1. Please describe the major features of this project.

Provide a panic button system with 8 receivers for hearing officers, investigators and DBA employees to have in case of emergency when dealing with unruly or unhappy business owners. This system will be able to alarm the security guard and the CPD on the 1st fl. There will also be a panel installed by the reception desk so they know where the emergency is. There will also be an access control system added to the finger print room and hearing room so access can be controlled and tracked.

Provide a panic button system with 8 receivers for hearing officers, investigators and DBA employees to have in case of emergency when dealing with unruly or unhappy business owners.

2. Please explain why this project could not be bid using the city's traditional bid process and the need to use JOC Procurement system.

This system is an add on to current system and working with in house forces to install this. Scheduling is critical and the JOC makes this process easier.

3. If the project is a one trade project, please provide an explanation of why it would not be in the city's best interest to do the project using DGS trades or existing term agreements.

Multitrade - electricians, laborers, carpenters, and painters

4. If it is anticipated that over 25% of the project will consist of Non Pre-Priced items, please provide an explanation on why JOC should be used.

All items contained in the CTC

5. If some elements of the proposed JOC Project scope of work are covered by city term agreements, these elements should be removed from the JOC Project.
