Disclosure of Retained Parties

A. Definitions and Disclosure Requirements

1. As used herein, the term "Contractor" means a person or entity who has any contract lease with the City of Chicago.
2. Pursuant to Executive Order 97-1, every city contract and lease must be accompanied by a disclosure statement providing certain information and attorneys, lobbyists, accountants, consultants, subcontractors, and other persons whom the contractor has retained or expects to retain with respect to the contract or lease. In particular, the contractor must disclose the name of each such person, his or her business address, the nature of the relationship, and the amount of fees paid or estimated to be paid.
3. The Contractor is not required to disclose employees who are paid solely through the Contractor's regular payroll.
4. "Lobbyist" means any person (a) who for compensation or on behalf of any person other than himself undertakes to influence any legislative or administrative action, or (b) any part or whose duties as an employee of another includes undertaking to influence any legislative or administrative action.

B. Certification

Contractor hereby certifies as follows:

Attachment A

Utilizing JOC For City Construction Projects

Project Number: 06-84-7-032.A

Department: ENGINEERING

Project Manager: John Cecchin

Telephone #: (312) 744-2255

For all Proposed JOC Projects, Please complete Items 1 and 2 below. As appropriate, Complete items 3,4 and 5. Attach to MOA (JOC Approval Letter)

1. Please describe the major features of this project.

The scope of work to be performed under this sub-order is reviewing the current design and developing means and methods of construction while producing the shop drawings for filling of the vaulted sidewalks. This will be performed by a licensed structural engineer from the State of Illinois. The shop drawings will also be signed and sealed by a licensed structural engineer from the State of Illinois. The vaulted sidewalks will be constructed under the scope of the original suborder.

2. Please explain why this project could not be bid using the city's traditional bid process and the need to use JOC Procurement system.

The review of the current design and developing a means of methods/ shop drawings by a licensed structural engineer was not included in the original scope of the project. The contractor is required to submit these prior to construction after reviewing the field conditions. It makes sense to use the same JOC contractor that will be performing the work to develop the means and methods/ shop drawings.

3. If the project is a one trade project, please provide additional explanation of why it would be in the city's best interest to do the project under JOC:

N/A

4. If it is anticipated that over 25% of the project will consist of Non-prepriced items, please provide an explanation on why JOC should be used.

N/A

5. If some elements of the proposed JOC project scope of work are covered by city term agreements, explain why they are included in this JOC project instead of being procured through the term agreements.

The review of the current design and developing a means of methods/ shop drawings by a licensed structural engineer was not included in the original scope of the project. The contractor is required to submit these prior to construction after reviewing the field conditions. It makes sense to use the same JOC contractor that will be performing the work to develop the means and methods/ shop drawings.
