Re: JOC Project Number: WIC-07-001.A / V-7-051
Project Title: Assess Fleet Exhaust Extraction System
Address: 1685 N. Throop St.
Estimated Cost: 100,000.00
Specification Number: 51701
Funding Source: 007-OC12-038-2005-1649-226699-121470-21

Dear Ms. Lumpkin:

We request that the above referenced project be contracted under the Job Order Contracting (JOC) Method. Attachment A describes the scope of work and the appropriateness for using JOC for this project.

Please direct all technical inquiries to Project Manager Dick Smith at (312) 744-3843 and all other inquiries to Staci-Rae Bixler at 744-1636.

If you concur with our recommendation, please sign below and return a copy for our files.

Sincerely,

Michel E. Peña
Commissioner

Attachment A
Utilizing JOC For City Construction Projects
Fuel Station/Shop Facility
1685 N. Throop St.
Project No: WIC-07-001.A

For all Proposed JOC Projects, Please complete Items 1 and 2 below. As appropriate, Complete items 3, 4 and 5. Attach to MOA (JOC Approval Letter)

1. Please describe the major features of this project.

   The first phase of this project is for the JOC contractor to assess, and recommend the proper layout for each of the 11 facilities under this project. For an exhaust system, the contractor doing the install must be the one to assess each of the 11 facilities. Once the assessment is done, the contractor will submit to DGS the recommended installation of each facilities system, which will be approved at DGS prior to the work being preformed.

   Visit each Fleet maintenance garage with fleet personnel and develop specific sketches identifying exhaust extraction system locations including duct runs, power supplies, number of drops per system, proposed fan and filter box location.

2. Please explain why this project could not be bid using the city’s traditional bid process and the need to use JOC Procurement system.

   Time restraints make JOC procurement method most practical for this project.

3. If the project is a one trade project, please provide an explanation of why it would not be in the city’s best interest to do the project using DGS trades or existing term agreements.

   Multiple trades.

4. If it is anticipated that over 25% of the project will consist of Non Pre-Priced items, please provide an explanation on why JOC should be used.

   N/A

5. If some elements of the proposed JOC Project scope of work are covered by city term agreements, these elements should be removed from the JOC Project.

   N/A
