For all Proposed JOC Projects, Please complete Items 1 and 2 below. As appropriate, Complete items 3, 4 and 5. Attach to MOA (JOC Approval Letter)

1. Please describe the major features of this project.
   The existing shoring of one of the vaulted slabs of the Jackson Drive Viaduct is deteriorated and requires replacement. New shoring needs to be installed immediately to ensure structural integrity and public safety. The scope of work includes installing shoring, maintaining the shoring for six months till the structure is replaced and removal of shoring.

2. Please explain why this project could not be bid using the city’s traditional bid process and the need to use JOC Procurement system.

   CDOT has requested DPS to advertise the entire viaduct reconstruction project. However, the earliest a contractor could be in place to do this work is at least four (4) months away. This emergency item of work can not be performed by City Forces as it requires specialized personnel and equipment. Also, this item of work is not covered by an existing term agreement. It would not be time or cost effective for us to perform the work through the City’s traditional bid process.

3. If the project is a one trade project, please provide additional explanation of why it would be in the city’s best interest to do the project under JOC:

   Not applicable – various trades will participate.

4. If it is anticipated that over 25% of the project will consist of Non-prepriced items, please provide an explanation on why JOC should be used.

   N. A.

5. If some elements of the proposed JOC project scope of work are covered by city term agreements, explain why they are included in this JOC project instead of being procured through the term agreements.

   N. A.
