Attachment A
Utilizing JOC For City Construction Projects

Project No: 07-FHP-002

For all Proposed JOC Projects, Please complete Items 1 and 2 below. As appropriate, Complete items 3,4 and 5. Attach to MOA (JOC Approval Letter)

1. Please describe the major features of this project.
   
The major feature of this project includes the remediation of contaminated soil to a maximum depth of three (3) feet.

2. Please explain why this project could not be bid using the city's traditional bid process and the need to use JOC Procurement system.
   
The DOE JOC Program was developed to remove Underground Storage Tanks throughout the City as well as the remediation of contaminated sites in support of the Brownfield Redevelopment Program. When the JOC program was developed, the estimated value of an average site remediation project was around $300,000. The Scope of Work and size of the project described above fits inside the initial design of the DOE JOC Program. Furthermore, the City purchased the property with the intent of turning it into a park. Department of Environment is responsible for remediating the site and promised Alderman Schiller that said remediation would be complete by the Fall of 2007. As such, this is a time sensitive project. Since the Scope of Work and size fit inside the DOE JOC Program, we are requesting the project be accomplished through the JOC Procurement System.

3. If the project is a one trade project, please provide an explanation of why it would not be in the city's best interest to do the project using in house trades or existing term agreements.
   
   This project involves more than one trade.

4. If it is anticipated that over 25% of the project will consist of Non Pre-Priced items, please provide an explanation on why JOC should be used.
   
   It is anticipated that the amount of Non Pre-Priced work tasks will be less than 25%.

5. If some elements of the proposed JOC Project scope of work are covered by city term agreements, these elements should be removed from the JOC Project.
   
   The Scope of Work for this project is not covered by a City Term Agreement.
