Disclosure of Retained Parties

A. Definitions and Disclosure Requirements
1. As used herein, the term "Contractor" means a person or entity who has any contract lease with the City of Chicago.
2. Pursuant to Executive Order 97-1 every city contract and lease must be accompanied by a disclosure statement. Providing certain information and attorneys, lobbyists, accountants, consultants, subcontractors, and other persons Whom the contractor has retained or expects to retain with respect to the contract or lease. In particular, the contractor must disclose the name of each such person, his or her business address, the nature of the relationship, and the amount of fees paid or estimated to be paid.
3. The Contractor is not required to disclose employees who are paid solely through the Contractor's regular payroll.
4. "Lobbyist" means any person (a) who for compensation or on behalf of any person other than himself undertakes to influence any legislative or administrative action, or (b) any part or whose duties as an employee of another includes undertaking to influence any legislative or administrative action.

B. Certification
Contractor hereby certifies as follows:
1. This Disclosure relates to the following transaction:
   - Project name: S-06-015.B-3
   - SWPP Immediate Repairs Phase B - Chem Bid South Wall
   - Specification, loan or other identifying number: 26036
2. Name of Contractor: Rossi Contractors, Inc.
3. EACH AND EVERY attorney, lobbyist, accountant, consultant, subcontractor, or other person retained or anticipated to be retained by the Contractor with respect to or in connection with the contract or lease is listed below (attach additional pages if necessary):

Department of Water Management

11/26/2007

Subject: Job Order Contract - SWPP Immediate Repairs
Project Description: SWPP Immediate Repairs
Project No.: S-06-015.B-3
Contract No.: 9911
Spec. No.: 26936
Estimated Cost: $95,000.00
Funding No.: 006-0212-0882020-0550-W706-220505-06203060

Dear Mr. Yerkes:

This Department is requesting that the Contractor make immediate repairs to the facade on the south elevation of the Chemical Building at SWPP. Prior to performing the work, install temporary wood protective shielding on the low roof that is adjacent to the work area on the south elevation as well as above the monorail beam and double entry door at the north corner of the east elevation in order to protect from falling debris.

Three types of repairs are described below:

1. Re-affix displaced panels to the structure utilizing specified stainless steel anchors.
2. Clean and prepare specified limestone horizontal and vertical joints for sealant. Apply specified primer and joint sealant.
3. Install limestone dutchman repair at the specified location.

Estimated duration of this Project is (3) three Weeks.

Enclosed is the preliminary estimate of cost for the work involved and a project description. Funding for this work is in place.

If you concur with this request, please notify this office as soon as possible and forward a copy of the approved memorandum of authorization. For any further information concerning this matter, contact Richard Patrick, Bureau of Engineering Services at 744-5067.

Yours, Truly,

[Signature]

John F. Spatz, Jr.
Commissioner

The Department of Water Management
JOC Approval Letter
Utilizing JOC For City Construction Projects

Project No: S-06-015.B-3
SWPP Immediate Repairs

For all Proposed JOC Projects, Please complete Items 1 and 2 below. As appropriate, Complete items 3, 4 and 5. Attach to MOA (JOC Approval Letter)

1. Please describe the major features of this project.
   The south elevation of the Chemical Building at SWPP requires immediate repairs of the limestone facade panels. During demolition work along the west side of this building, an existing dutchman repair fell and several limestone wall panels and top coping pieces have been determined to be loose and need to be secured to the structure.

2. Please explain why this project could not be bid using the city’s traditional bid process and the need to use JOC Procurement system.
   In September 2007 an existing dutchman repair fell from the south elevation of the Chemical Building. The remaining limestone panels on this elevation need to be checked and secured if found to be loose. Phase B of this project is for immediate repairs to this wall. JOC is the quickest way to make these immediate repairs since the Contractor has already been on site with the Phase A work and is familiar with the repair procedures.

3. If the project is a one trade project, please provide additional explanation of why it would not be in the city’s best interest to do the project under JOC.
   N/A.

4. If it is anticipated that over 25% of the project will consist of Non-prepriced items, please provide an explanation on why JOC should be used.
   N/A.

5. If some elements of the proposed JOC Project scope of work are covered by city term agreements, these elements should be removed from the JOC Project.
   N/A.
