For all Proposed JOC Projects, Please complete Items 1 and 2 below. As appropriate, Complete items 3, 4 and 5. Attach to MOA (JOC Approval Letter)

1. **Please describe the major features of this project.**

   18th Street viaduct requires urgent repairs. The scope of work includes: repairs to heavily corroded and lost sections of bearings over the piers, repairs to concrete spall on the face of pier 5 with exposed anchor bolts and loss of bearing area, repairs to major concrete spalling with exposed corroded reinforcement under the longitudinal joint and major repairs to concrete spalling with exposed corroded reinforcement on the median. The scope of work increased due to extensive concrete repairs more than anticipated in the original scope.

2. **Please explain why this project could not be bid using the city’s traditional bid process and the need to use JOC Procurement system.**

   The proposed additional repairs require specialized personnel and equipment, which is part of ongoing work. The work can not be performed by City Forces and is not covered by an existing term agreement. It would not be time or cost effective for us to perform the work through the City’s traditional bid process.

3. **If the project is a one trade project, please provide additional explanation of why it would be in the city’s best interest to do the project under JOC:**

   Not applicable - various trades will participate.

4. **If it is anticipated that over 25% of the project will consist of Non-prepriced items, please provide an explanation on why JOC should be used.**

   N.A.

5. **If some elements of the proposed JOC project scope of work are covered by city term agreements, explain why they are included in this JOC project instead of being procured through the term agreements.**
