Reason why the MOA differs from the Sub Order

Project No: JB5-029.H
Police Academy Lockers & Restrooms

1. The Sub Order amount differs from the MOA estimate for the following reasons:

A brief scope of work:
Approximately 70 various architectural, plumbing, mechanical &
electrical changes to accommodate Facility's requests and unforeseen
field conditions that were not reflected on the 1973 as-builts.

Major items:
1.) Replacement of existing exhaust ductwork, which was lined with
insulation that had turned moldy over the past 30yrs.
2.) Extending existing masonry corridor walls to deck above. The
as-builts indicated this was already done.
3.) Major revisions to the plumbing waste and vent lines. The bathrooms &
showers plumbing was designed around the as-builts but existing field
conditions, which could not be discovered until the plaster ceilings
were removed, required extensive re-routing of the cast iron piping.
4.) Installation of s.s. trench drains at both the men's and women's
shower areas to alleviate back pitching of water caused by existing slab
conditions.
